

PROJECT PROFILE

FIRM

Cushman Wakefield

CLIENT

Abbott Laboratories

YEAR

2019

LOCATION

San Diego, CA

INDUSTRY

Life Sciences

Abbott Laboratories is a medical device company.

Abbott originally came to bkm with office furniture needs. Abbott also required multiple rooms of audio-visual integrated systems to allow for professional presentations and general functionality. Once acquiring the office furniture business, bkm was able to upgrade their audio-visual systems at the same time.

SCOPE OF WORK:

- 4 Floors
- 8 Executive Offices
- Multiple Conference Rooms
- Approximately 25 rooms of Audio-Visual Integration

bkm worked under a compressed schedule and under strict safety guidelines to implement audio visual systems that comply with Abbott's nation-wide standards. Since project completion, bkm has continued to be the go-to dealer for audio visual design and integration services.
